Summary

4th year 1st semester CSE student at the University of Dhaka with hands-on experience in full-stack web development using React, Next.js, Express.js, FastAPI, PostgreSQL, MongoDB, and Supabase. Built and deployed real-world projects including a car rental platform, departmental hub, and backend issue-tracking API. Interested in software engineering, cybersecurity, and machine learning.

Education

University of Dhaka B.Sc. in Computer Science and Engineering (CSE)	September 2022 – Present Dhaka, Bangladesh
---	---

Skills

Languages	C, C++, Java, Python, JavaScript, TypeScript
Frontend	React, Next.js, HTML, CSS, Tailwind CSS
Backend	Node.js, Express.js, FastAPI, REST API Development
Databases	PostgreSQL, MongoDB, Supabase
ML / Data	NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, PyTorch, Keras, TensorFlow
Tools	Git, GitHub, Postman, Vercel

Projects

DriveFleet — Full-Stack Car Rental Platform [Project Link](#)

Next.js, Express.js, MongoDB, Better Auth, JWT, Tailwind CSS, Vercel

Built a car rental platform where users can browse vehicles, view details, book rentals, and manage listings.

- **Authentication:** Implemented Better Auth with JWT HTTPOnly cookie-based secure login.
- **Booking System:** Added vehicle booking, rental management, and user-specific booking records.
- **Protected Routes:** Created user-based protected pages for adding, updating, and managing cars.

DevPlus — Internal Tech Issue & Feature Tracker API [Project Link](#)

Node.js, TypeScript, Express.js, PostgreSQL, JWT, Vercel

Developed a RESTful API for tracking internal bugs and feature requests with secure authentication and role-based access.

- **Role-Based Access:** Added contributor and maintainer authorization for issue management.
- **Secure API:** Implemented JWT authentication, protected routes, and structured error handling.
- **Database Logic:** Used PostgreSQL raw SQL queries with issue filtering, status updates, and metrics.

SkillSphere — Skill Management Application [Project Link](#)

Next.js, React.js, MongoDB, Better Auth, Vercel

Built a skill management application with authentication, user profiles, and database-driven skill features.

- **Google OAuth:** Integrated Better Auth with Google authentication for user login.
- **User Profiles:** Added profile-based skill management and personalized user data.
- **Backend Integration:** Connected RESTful backend services with MongoDB database operations.

Interests

- Full-Stack Web Development
- Cybersecurity
- Machine Learning

Languages

Bengali (Native) • English (Professional)
